

Hello Lowell Families and Community,

This week brings positive changes for our student athletes and a set back for our county. OSAA and OHA recently approved indoor contact sports, therefore, practices for basketball and wrestling begin Monday, May 10th. Signup sheets are in the Lowell Jr/Sr High office. Unfortunately, as of Friday, April 23, Lane County has been designated High Risk. This limits the number of spectators we are able to have at our indoor events. Let's all work to get those numbers back down so that we can watch our amazing athletes do what they love! In the meantime, Lowell has streaming services set up so all of our fans can watch the action!

If you are picking your student up in front of Lundy Elementary and need to get out of your car, PLEASE PULL INTO A PARKING SPACE. The drive through pick-up needs to continue to flow smoothly in order to accommodate all families. If you stop to buckle your student, help with backpacks or give a hello high five, we have traffic issues. The parking spaces are for parents to stop if needed. Please take advantage of those.

STEM kits will be delivered to Lundy Elementary next week. Be on the look out for more information regarding this!

Report cards were mailed out last week. If you did not receive one, please contact your child's teacher.

Food service drive thru and routes will be operating as usual. If your student is receiving food at school, they will not be eligible to receive additional food at the drive thru.

We at Lowell School District are doing our best to follow the mandates from ODE, OHA, and Lane County Public Health regarding Covid guidance. Our job at this school district is to ensure that we are creating a space where all students can be safe and healthy. While we are aware that not everyone shares the same perspective regarding Covid precautions, we will follow guidance and do everything available to make sure we keep students in our classrooms, and we ask that you help and support us in that endeavor.

This information was shared with us and we would like to pass on to you:

Lane County Public Health will be holding a vaccine clinic for people 16 to 17 years old at Lane Community College on April 24 and 25 from 9:00 am to 3:00 pm. 2,400 doses of Pfizer will be made available for those 16 to 17 years old. Additional doses will be made available to the general public. This clinic is by appointment only, please go to <http://lanecounty.org/vaxclinics> to schedule your vaccine appointment. Important: All Lane County Public Health clinics are free. You do not need insurance and will not be asked for any financial information. Additional clinics are being held throughout the area, including Lane Events Center (Fairgrounds) and Autzen Stadium.

Please stay safe, healthy and kind!
