

Hello Lowell Families and community,

It is almost time for Spring Break...just one more week. But until then, here is a little information from around the district.

Mark your calendars because State testing begins for 7th, 8th and 11th graders the week of April 10th. The end of the third quarter is on April 13th. Make sure you are utilizing ParentVue and StudentVue to check grades, track assignments and touch base with teachers.

We are continuing construction on new dug outs for our softball and baseball teams. Our staff are doing their best to complete the project but until then, games will be away. Look for home games with our awesome dugouts later in the season!

Spring sports are here, and unfortunately that also means rainouts. When deciding whether a game needs to be rescheduled, coaches, maintenance staff, and the Athletic Directors from both teams, use many factors to determine whether a game can be played. Current and forecasted weather as well as field conditions are just a few. Those decisions must be made at least two hours before the event start time, but will often be made sooner if the away team has a longer commute. We always do our best to make decisions to keep our players safe. If a game must be rescheduled, we will send that information out through our players and the Lowell School District Facebook page. Games are rescheduled for the soonest available date for both teams, with league games taking priority. We appreciate your patience and look forward to a successful season!

Lowell SD Family Resource Collaborative wants to hear your voice! What are some ways this program could work to better serve your family, and others in our community? As spring and summer approach, we are planning for future parent classes and other opportunities, so now is the time to share your ideas. Please take 5 minutes to complete [this brief survey](#). Thank you for your feedback and participation, and for helping us make our program a success!

We appreciate all that have taken the time to respond to our survey regarding calendar options for next year. Our staff work to make sure that our students are always in compliance with the ODE required minutes for learning time. However, if we can, we want to explore new options that may better meet the needs of our staff, students and community.

Lane County would like our community to participate in a survey to help them better understand the needs, and distribute and allocate funds to, community members in need. Please see flyer on Facebook for more information.

Stay safe, healthy, and kind!
